

PASADENA FOOTHILL ASSOCIATE SERVICES PRESENTS:
The 2004 Architectural Registration Exam Series

WORKSHOP / SEMINAR DESCRIPTION:

This is the third year Edward Einem, Associate Service Director, and his team has organized the series to provide comprehensive and affordable knowledge. There will be slight differences as follows: We have taken each topic and split the workshop into two sessions. The first session information will be given in a seminar format. During the second session, information will be given in a workshop atmosphere-allowing participants to be given additional information, work on mock-up exams and ask questions where they need assistance. For more information check out the Associates website online at www.aiapf.org/as.htm
